

Dear Colleagues,

The Puerto Rico Energy Center (PREC), the Ing. José Domingo Pérez School of Engineering, and the School of Natural Sciences and Technology at Universidad del Turabo, are pleased to invite you to the **X Puerto Rico Energy Center (PREC) Symposium** to be held on February 15, 2019 in the Library Museum Governor Pedro Rosselló, located at the Universidad del Turabo main campus in Gurabo, Puerto Rico. This year the main topic of the symposium is Energy and Resilience.

The program provides networking opportunities for professional, R&D, and educational experts with business leaders, investors, and exponents of leading technologies. The Symposium will feature keynote presentations, technical sessions and exhibitions related to the main topic of Energy and Environment.

Prospective participants are invited to submit their abstracts through the [electronic form](#) located at the symposium website on or before November 30th, 2018. Authors whose abstracts are accepted will be notified on January 15, 2019. Abstracts should be written in English in accordance with PREC required format and accepted subject to a peer review. Accepted abstracts will be published in the Symposium Proceedings. For more information please contact: [symposium@prec.pr](mailto:symposium@prec.pr).

Cordially

**Amaury Malavé, Ph.D.**
